

Flory Multilingual Communications was established fifteen years ago to provide Language Translations, Localization, and other Language Services. Based in Nigeria, we initially set-up to provide services in **YORUBA, IGBO, HAUSA/PIDGN/BINI/FULA, AND OTHER NIGERIAN AND AFRICAN LANGUAGES; OUR SERVICES NOW COVER ALL LANGUAGES OF THE WORLD.** With our extensive experience in all subject matters, we serve both large international organizations as well as individuals. Our expertise covers all languages and all subjects. Our Translators are not only highly experienced; they are native translators that translate only into their mother tongues and all translations are reviewed by a Senior Reviewer who cross-check the documents for consistency and implementation of all style guides according to a specific client instruction.
